Program Description:

All my performances are approximately 50 minutes to one hour and twenty minutes. I dress like the women and weave their life story from birth to the end of their life. I bring history alive!!! The audience will be right there when history unfolds right in front of their eyes. My performances are educational, inspiring, empowering, transforming and entertaining at the same time. It is a must-see program. It is not your average program. One of the audience members once said that "I did not perform Sojourner Truth tonight I became her." There is always a question-and-answer period at the end of each performance. I also travel with historic memorabilia.

Audience Range: Grades three to adults.

Geographic Range: Anywhere in the USA and Abroad—Whoever calls I will come.

Books Written:

Belle: A beautiful woman inherits her father's farm and inherits all that goes into running a successful farm; love, romance, marriage, tragedy.

Ms. Emmaline's Little Book of Wit & Wisdom: It is a list of phrases parents used on the farm of a little girl growing up in South Carolina. It is the African Proverbs meeting Roots.

Zach and his Lucky Zebra Socks: A little five-year-old walking to the beat of his own drum; in dressing himself; he is extremely lucky whenever he wears his zebra socks.

Deedle, Deedle Your House is on Fire! The best summer adventures since Huckleberry Finn.

****I am available for your next Book Club Meeting or Book Signing. Books may be ordered from Amazon or Author house.**

I am available for your next: Banquet, luncheon, meeting, conference, convention, community day, family reunion, youth summit, summer camp, church program, school program, college seminar, women conference/forum, documentary, feature film, radio talk show, TV talk show, and birthday parties.

- ******I also present a very special KWANZAA presentation –everyone gets involved --making gifts, dancing and singing.**

****** For the sixth year I will present The Harriet Tubman summer camp and the Bessie Coleman summer camp. A unique camp fusing history and science-STEM.**
